I’m very late in my dating game. I had a couple of short term relationships, but I think I was more interested in the idea of a relation then the actual girl. that’s sort of my intro

This is my problem. I’ve been able to get many first dates but they haven’t stuck. My issue is that small talk is very difficult for me. Also if it’s not brought up organically how do I ask a girl what she likes to do. Asking her flat out seems very cliche
