i met a girl in a party and i was having a conversation with her. suddenly I saw a picture of her and her friend in her Iphone. I remember my friend told me to compliment her friends if i get the opportunity, he said that's part of attraction. So I told her that her friend is really pretty and then she asked "what about me?" what am I supposed to say?? should I compliment her or that would turn her off? what attracts women when you're having a conversation with them?
