Hi guys! I have a question for you all... where are you all hiding? I mean where are all me seriously looking for future loving wives? It's so difficult to find the ONE! You are talking on forums probably while we-girls are looking for you on sites like <http://www.rumymatch.com>? What do you think, should all girls come to forums now?

You'll eventually find the right man for you. Right now, most guys enjoy flirting and not ready for serious relationships.

If you can't find a guy, tell me plz, where are you looking? Maybe you'd better to change the bar, you've used to spend your friday evenings? or dating site, where you are looking for a man of your life for a year? if it doesn't work, think of it and change something!
visit this blog and i hope it will help you to collect yourself and do your best to be finally happy with your significant other!

Many people think that nowadays, when everyone is busy and running around their business, to find a nice guy for a serious relationship is impossible. But not all so sad as it seems at first glance. In any case, it's much easier for the girls to find a life-partner than for guys.

First, you should decide: What do you really want?

Think about your ex-boyfriends. What were they?

Think of all your friends. Who do you think stands out?

You might find that you like the blue-eyed blondes.

Get out of your comfort zone!

Break your routine! Maybe that's where you never go, you will approach a guy the love of your life.

Be more sociable and smile.

Talk to people. Do not afraid of people. Make new acquaintances!

Finally, open your eyes, half of the population is men.

You do not need to think about where and how to find a guy, you just should think about how to create the right situation to let the guy found you. And sitting at home, you will not give him that opportunity.

SO what did you actually do, tell me plz?
