It actually depends. I have a boyfriend who I met online. Its not a dating site. It just happened in some app. We just started talking and eventually fall for each other. but if you must only try to date and meet people that live within in your immediate area. It's not weird, its just full of too many fakes.

Well, according to experts, honesty, patience and a well-thought-out profile are all anyone needs to find true love.
How are all of you guys finding success in love online?
