based on my true experience... but now is pass already, but i have a wonderfull experience while im make an relation with a women which older age then i, really fun and we have some story, including sex experience between us.

but unfortunately my parents (my momy) doesn't agree if i make a deep relation with her, as long as you know, my age is 35 and she 39 right now, so we decided to break up after 3 yrs of our relation.

please share what you will do if you guys have an experience like this here.

Man, are you kidding? Or probably you are just trolling?

Otherwise, let me clarify: you mom is driving your life while you are a 35 y.o. man - is everything correct?

everyone likes different things maybe when a guy says he loves older woman he likes the facts that she is more experienced or as sigmund freud assumed maybe they miss their mothers. it's all about psychology. the question is either you believe in this psychology and can resist it or not?
