mini-skirts is not enough. This external symbols of aggressive sexuality are imposed by mass culture. What should you do?

First, to love your body and learn to feel it. Nothing contributes to this better than sports.

Explore your own body And understand what gives you pleasure.

As often as possible arrange a sensual pleasure Namely, massage, baths with aromatic oils and a variety of beauty treatments, you can do both in salons and at home.

Feel your own femininity That is the weakness and fragility.

Conduct an audit in the wardrobe And to try to minimize the number of jeans, comfortable, but shapeless sweatshirts and other clothes that traditionally considered to be asexual.

It's really hard to meet a woman nowadays who doesn't want to be attractive and beautiful. They spend thousands of dollars to bring the desired appearance to reality... expensive cosmetics, beauty salons, fitness facilities, various diets, etc. Guys, share the recipes, how to look good and what it needed to do?

This is so underrated. Your face and physiology actually changes to become more attractive as you get in shape. If you just get in something like a crossfit gym, you will be attractive in a couple years no doubt.
